2021 COLOUR PALETTES
INSPIRATION

MESSAGE FROM IMAN

GREETINGS EVERYONE!

I wanted to share with you a few of my design inspirations from the beginning of this year. From colours to art, and decor items. Before that, I want to let you know where this all came from. Last year, I started to question what design looks like here in North America. Growing up in Toronto, a multi-cultural city, with a Jamaican father and half French & German mother, I had many cultures to draw inspiration. With that said, we can't help but notice the Eurocentric influence of design, that does not properly represent design in Canada with all the many cultures we have. I wanted to dive deeper and draw upon inspiration from our complexions and what African & Caribbean design from the diaspora should look like in 2021.

Fast forwarding, this year I was approached by many people asking if I could help with their office regarding their virtual meetings background. I started specifying colours to compliment ones complexion along with exuding their personalities and culture. This lead to a partnership with Sherwin-Williams Paint. Take a look and please let us know your thoughts.

Wishing you joy & peace!

Iman

FIRST SOURCE OF INSPIRATION

“After our Discovery Call with my client, I came across this image and was immediately drawn to the colours. This is inspiration and a good source to pull from. To the blues, greens, nude tones and pink, I knew this palette would initiate the design process”.

Colour palettes pulled from art in Sherwin-Williams colours.
